Unparalleled Technology Solutions. Exceptional Personal Service.

Problem

Whatever the size of your business, you will have IT needs. As your business grows, your IT needs grow with it.

PC Onsite is there to help you manage your IT needs. We're great at supporting clients who:

- Are time-poor, extremely busy or frustrated that everything gets complicated and confusing so fast.
- Have zero time to learn, understand and implement everything so it works the first time.
- Set everything up in an integrated way.

- Love everything that GoogleWorkspace or Microsoft offers but it's so darn hard to get working without a hitch.
- Went the DIY route and now nothing works!
- Terrified of cyber threats and don't know how to spot them until it's too late.
- Want a domain and website but have no idea where to start

And most of all, most of our clients really need to know if they're choosing the right tools for their business in the most effective and cost-efficient way for their business.

We get it, we work with you to find the right solution for your business IT needs today and into the future.

Note: Solution

Sub-Headline:

Unparalleled Technology Solutions. Exceptional Personal Service.

PC Onsite has [years] experience solving business technology needs across New Zealand. We work with small and medium-sized businesses providing fully integrated technology solutions and office systems, managed software services like Google Workspace and Microsoft.

- ✓ Friendly & experienced IT support team
- ✓ Onsite & Remote IT support

- ✓ Custom IT solutions to suit your business
- ✓ Googleworkspace specialists
- ✓ Microsoft specialists
- ✓ Friendly, results-driven IT support
- ✓ Design, implementation & support

Note for Kat: Here's a more expanded list which I can pad out or remove

Onsite Support — when an issue can't be handled remotely, we'll be there onsite for larger-scale projects including computer setups, server implementations and more.

Desktop & Network Management — We'll manage your software installations, hardware issues, working with software support lines directly (e.g. Google, Microsoft), speed up slow computers and the other issues which get in the way of your business.

Integrated Systems — Regardless of whether your team or business is location based or mobile we can support and monitor them.

Cybersecurity — we'll monitor cybersecurity threats, including ransomware, malware, and more. We can also train your team to be aware of what to look out for.

Monitoring & Reporting — We regularly monitor your technology round the clock, proactively watching for problems that might pop up. We're also actively involved in understanding and knowing the latest threats and vulnerabilities being experienced across the world.

Customised Services — Our IT Management is customised to your needs. Our goal is to help your business grow through technological efficiencies and best practices which means we'll recommend hardware and software which suits your business needs.

Sub-head

Prompt, Effective Managed IT Services

Body text

Your IT is what keeps you going. You don't want things to grind to a halt.

This is what you need **peace of mind** knowing that you've got the right kind of support if something happens, needs updating, servicing or replacing.

At PC Onsite we make sure that your technology seamlessly integrates with the daily flow of your business—regardless of whether your team is onsite, offsite or hybrid.

And most importantly, we can proactively monitor your IT network and systems to avoid downtime by keeping everything up-to-date with all the latest updates, patches and upgrades.

Our managed IT services give you the professional, responsive, and flexible support you need and expect.
